

Business Remote Deposit Check Scanner (bRDC)

Device Control Installation Guide – Windows

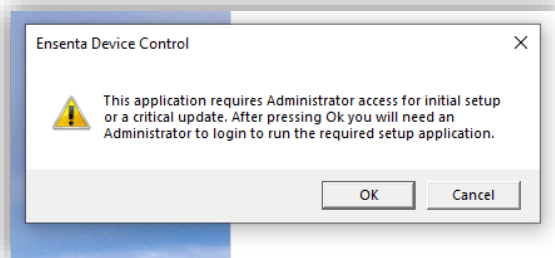

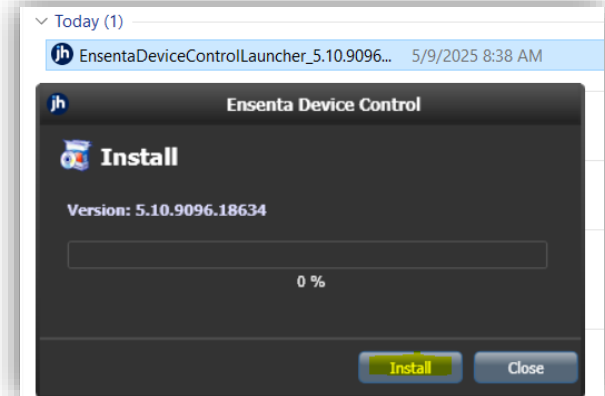

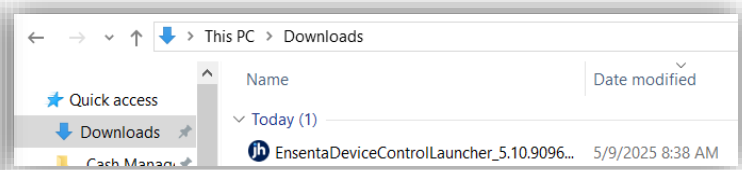

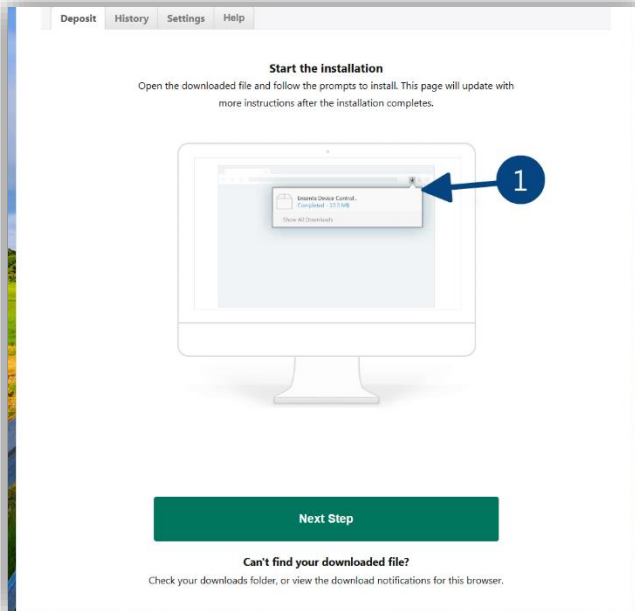

1. Log In to Online Banking - Select Business drop down – select Remote Deposit Capture

2. Click on the Deposit Tab, then click on Download Device Control

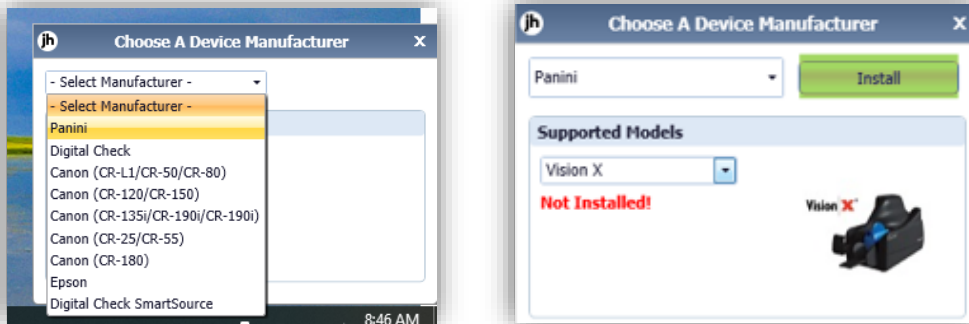

3. Open the download file and follow the prompts to complete installation.

NOTE: Depending on the configuration of your PC, you may need to “Run as Administrator” to successfully download the drivers. Also, if prompted with the requirement for Administrator access, ***please contact your IT/Administrator Support to complete device control installation.***

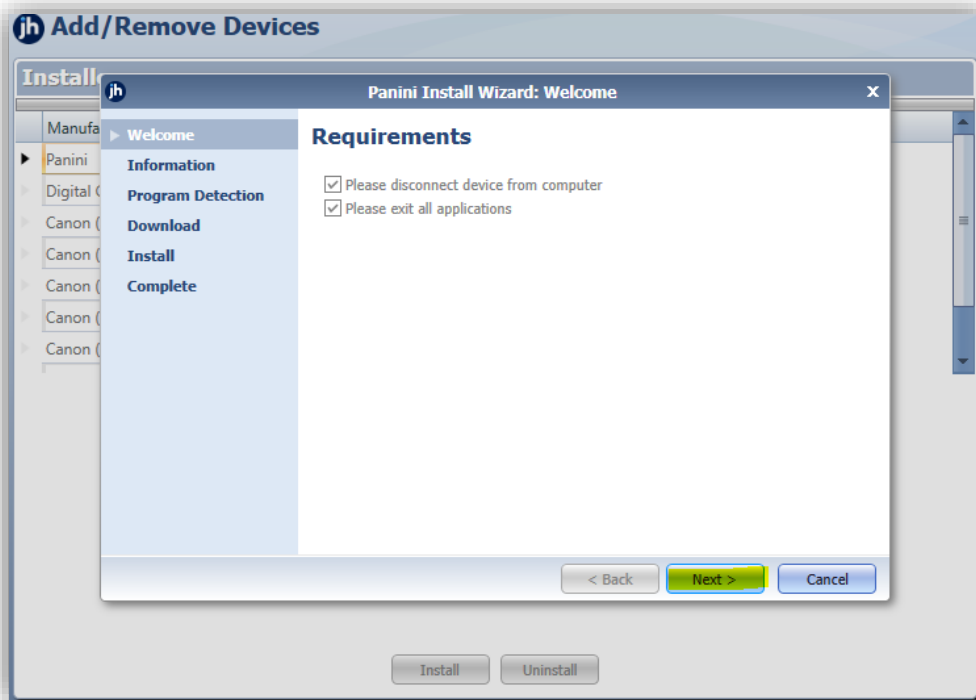

4. Once Administrator credentials are entered, you can proceed with selecting the Device Manufacturer – Select Panini –Select Vision X - Click Install

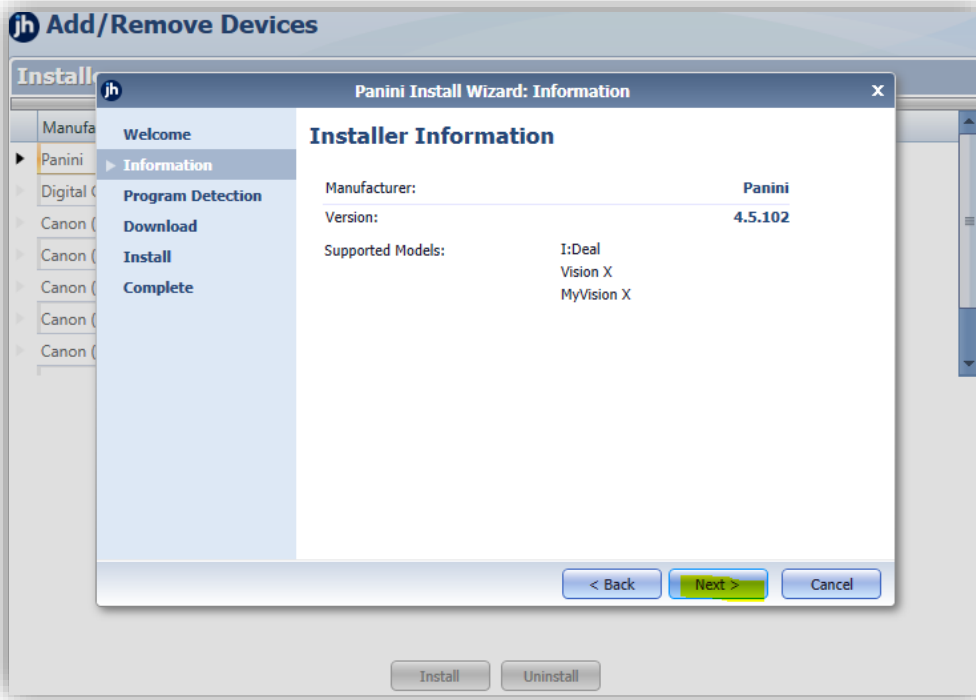

5. Select Panini, click Install.

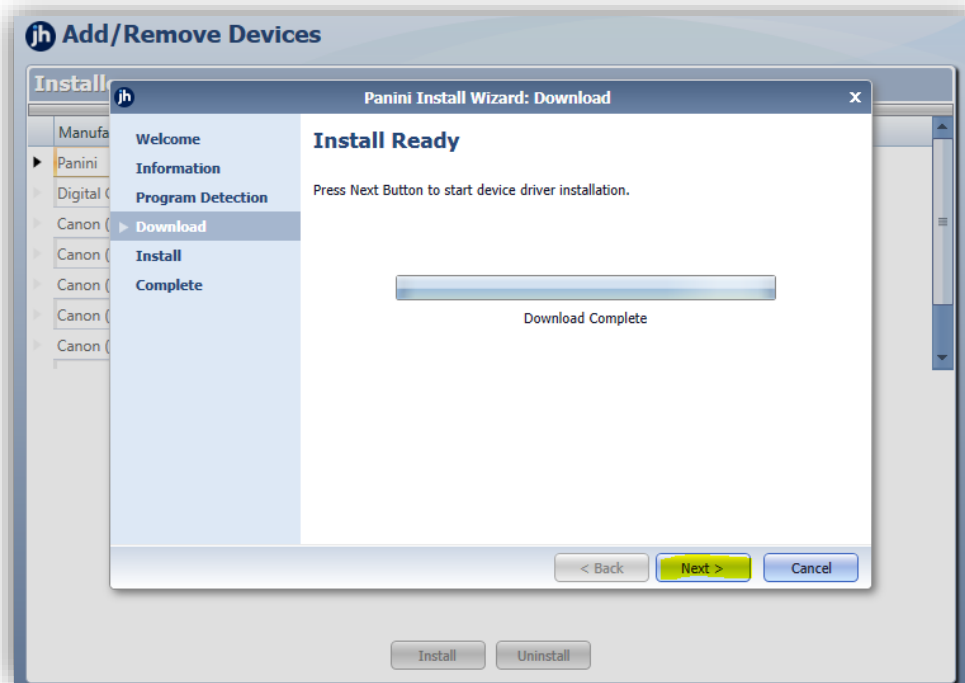

6. Be sure to disconnect the scanner as instructed below, click Next

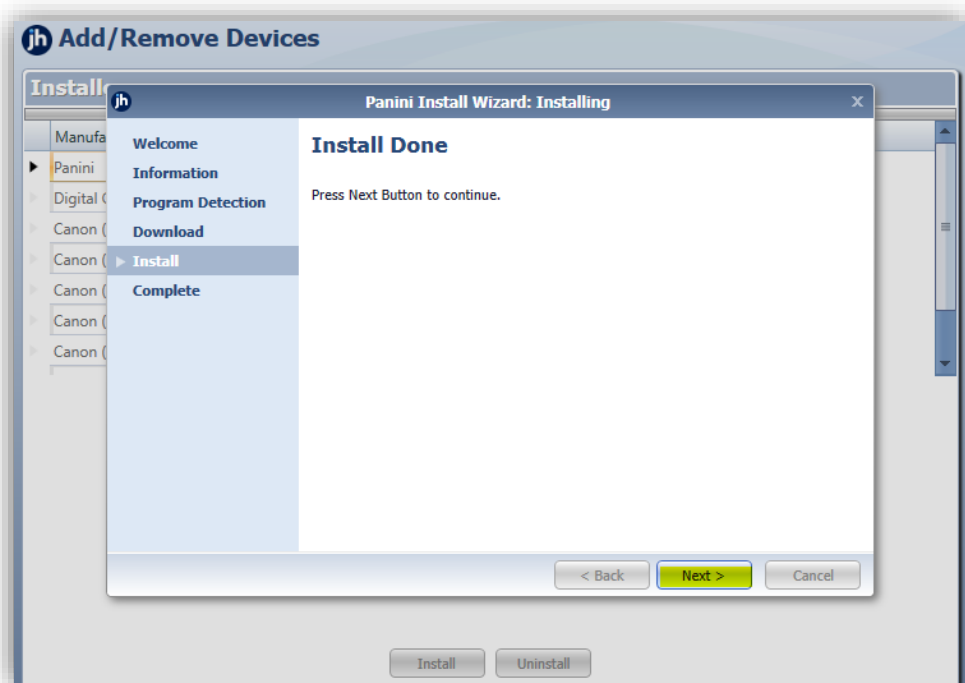

7. Click Next

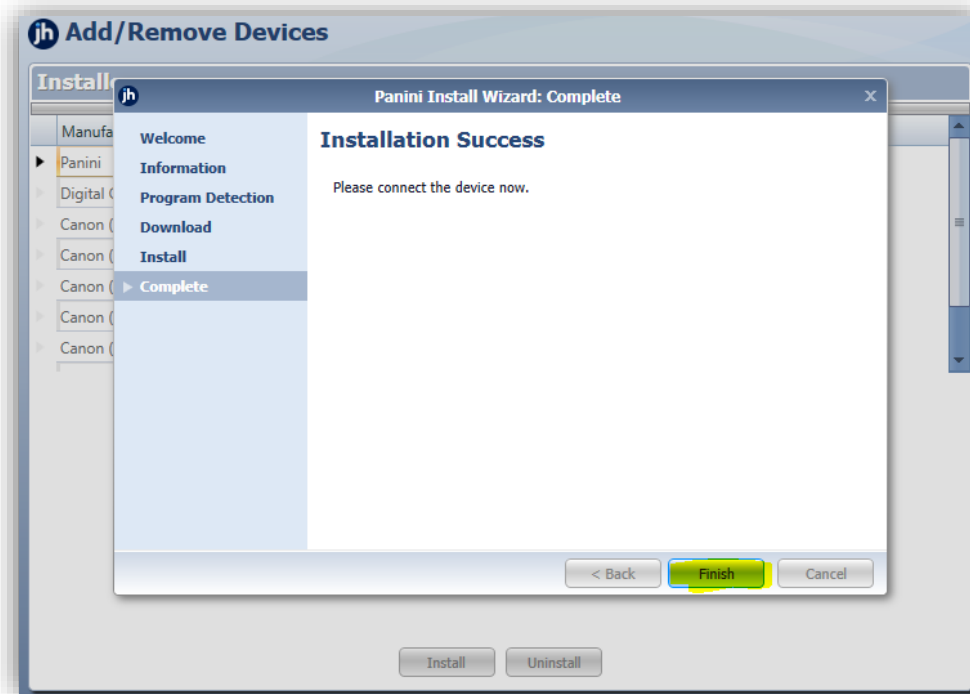

8. Once download is complete (this may take a minute or two), click Next

9. Click Next

10. Connect the scanner and click Finish

11. Restart your PC

Log back in to Online Banking - Select Business drop down – select Remote Deposit Capture. From the Welcome screen, scroll down and click the button ‘start a new deposit’.

start a new deposit

The scanner will initiate/turn on (green light/Panini model) indicating scanner is available to accept check scans and you will see the following screen.

Please see [Business Remote Deposit User Guide](#) for additional information.
